

GDPR Anonymization Center

GDPR-compliant data protection

Your benefits

- ✓ Software support for compliance with the European General Data Protection Regulation
- ✓ Reduced legal risk to defend against breaches and fines
- ✓ Simple and structured approach using anonymization requests
- ✓ Automated notifications to relevant stakeholders
- ✓ Privacy-friendly default settings and standardized process
- ✓ End-to-end integration with all OMNITRACKER applications

Software solution for data anonymization

With the OMNITRACKER GDPR Anonymization Center, personal data in all data records, files and file attachments used in OMNITRACKER systems can be anonymized securely. After in-house verifications, processing is done via standardized anonymization requests with subsequent referencing to the respective master data record of the person to be anonymized. Automated messages facilitate this processing.

Information and deletion obligations can be reliably complied by using this user-friendly procedure. The administration of any number of OMNITRACKER instances is possible with one GDPR Anonymization Center.

The OMNITRACKER GDPR Anonymization Center supports you in implementing the GDPR requirements in your OMNITRACKER system across all applications in a legally compliant manner.

Features of the OMNITRACKER GDPR Anonymization Center

GDPR-compliant
data anonymization

Quick processing of information
and deletion requests

Automated database
synchronization

Result analysis for ambiguous

Authorization & role management
via OMNITRACKER platform

Flexible adaptation and
integration options

Independent solutions

For companies of the SME sector to global players: We support all enterprises in the digitization and automation of IT and non-IT services. OMNITRACKER is used in all industries and company sizes. Thanks to our experience and flexibility, we serve all branches as well as niche sectors with individual solutions.

More services

Our consulting experts advise you on the development and implementation of your digital projects. As a reliable software partner, we have accompanied thousands of software projects in over 750 live systems. With this extensive experience and know-how, we support you in all phases: from requirement analysis and implementation to system migrations and workflow optimization —always with assistance of our technical support. Our trainings for end users, administrators and customizing trainings as well as web-based seminars complete the OMNINET service portfolio.

About OMNINET

OMNINET, headquartered in Eckental near Nuremberg, Germany, and with other national branches and international subsidiaries, is one of the market leaders in the field of business process software, especially in the field of IT and enterprise service management. The product portfolio ranges from a highly flexible platform for the digitization and automation of business processes to BI tools and cloud-based service management solutions.

OMNINET is certified to ISO standard and has been delivering certified and award-winning software products for 25 years—100% made in Germany. OMNITRACKER is the industry-independent software solution for an ITIL®4- and GDPR-compliant implementation of individual digitization strategies.
