- ✓ Clear responsibilities through comprehensive role concept
- ✓ Better overview due to structured processes
- ✓ More transparency at all levels
- ✓ Exploit synergies and optimization potential to save costs and resources

Governance, risk and compliance (GRC) Center

Running a company successfully means not only increasing profits or minimizing risks, but also complying with laws and the various market regulations to secure competitive advantages. It is especially important to always recognize your company's potential, which will allow you to make existing processes more efficient and thus save costs.

With the OMNITRACKER Governance, Risk and Compliance Center, you ensure transparent processes. Individual steps can be processed in a structured manner and documented transparently. This allows you to optimally manage your contracts and assign responsibilities for risks, for example. Choose the right strategy based on regular reports and evaluations. Get a comprehensive overview of your company.

Critical Infrastructure Services

Independent solutions

For companies of the SME sector to global players: We support all enterprises in the digitization and automation of IT and non-IT services. OMNITRACKER is used in all industries and company sizes. Thanks to our experience and flexibility, we serve all branches as well as niche sectors with individual solutions.

More services

Our consulting experts advise you on the development and implementation of your digital projects. As a reliable software partner, we have accompanied thousands of software projects in over 750 running systems. With this extensive experience and know-how, we support you in all phases: from requirement analysis and implementation to system migrations and workflow optimization —always with assistance of our technical support. Our trainings for end users, administrators and customizing trainings as well as web-based seminars complete the OMNINET service portfolio.

About OMNINET

OMNINET, headquartered in Eckental near Nuremberg, Germany, and with other national branches and international subsidiaries, is one of the market leaders in the field of business process software, especially in the field of IT and enterprise service management. The product portfolio ranges from a highly flexible platform for the digitization and automation of business processes to BI tools and cloud-based service management solutions.

OMNINET is certified to ISO standards and has been delivering certified and award-winning software products for 25 years—100% made in Germany. OMNITRACKER is the industry-independent software solution for an ITIL®4- and GDPR-compliant implementation of individual digitization strategies.
