OMNITRACKER
THE BUSINESS PROCESS ECOSYSTEM

Project Management Center

Plan an implement efficiently

Your benefits

- **Remain flexible during project implementation and adapt project phases and milestones, including all dependencies**
- **Automate your business processes for faster, more resource-efficient processing of sub-steps with a lower error rate**
- **Use project templates to reuse and optimize proven project concepts**
- **Work location-independent thanks to a responsive tool environment with support for all devices**
- **Keep track of your current project state at any time with KPI dashboards and progress indicators**

Flexible project planning and implementing

With OMNITRACKER Project Management Center, you ensure flawless communication between all parties involved in projects of any size. Our project management software supports you in all project phases: from planning, initiation and regular controlling to systematic analysis and evaluation before and after project completion. The goal is to make efficient use of your specialists` knowledge and to complete projects in a resource-saving, transparent and successful manner.

All responsibilities, role and release concepts (e.g. in case of milestones or budget overruns) can be adapted in detail to your organizational structure. You can plan and execute your projects using both agile and classic approaches.

Features of OMNITRACKER Project Management Center

Full budget and cost control	Flexible authorization and role concept	Data exchange with MS Project
Reusable project structure plans	Agile or classic project model	Interfaces to third-party systems

Independent solutions

For companies of the SME sector to global players: We support all enterprises in the digitization and automation of IT and non-IT services. OMNITRACKER is used in all industries and company sizes. Thanks to our experience and flexibility, we serve all branches as well as niche sectors with individual solutions.

More services

Our consulting experts advise you on the development and implementation of your digital projects. As a reliable software partner, we have accompanied thousands of software projects in over 750 live systems. With this extensive experience and know-how, we support you in all phases: from requirement analysis and implementation to system migrations and workflow optimization —always with assistance of our technical support. Our trainings for end users, administrators and customizing trainings as well as web-based seminars complete the OMNINET service portfolio.

About OMNINET

OMNINET, headquartered in Eckental near Nuremberg, Germany, and with other national branches and international subsidiaries, is one of the market leaders in the field of business process software, especially in the field of IT and enterprise service management. The product portfolio ranges from a highly flexible platform for the digitization and automation of business processes to BI tools and cloud-based service management solutions.

OMNINET is certified to ISO standard and has been delivering certified and award-winning software products for 25 years—100% made in Germany. OMNITRACKER is the industry-independent software solution for an ITIL®4- and GDPR-compliant implementation of individual digitization strategies.
