OMNITRACKER
THE BUSINESS PROCESS ECOSYSTEM

Web Gateway 2

Direct OMNITRACKER access via browser
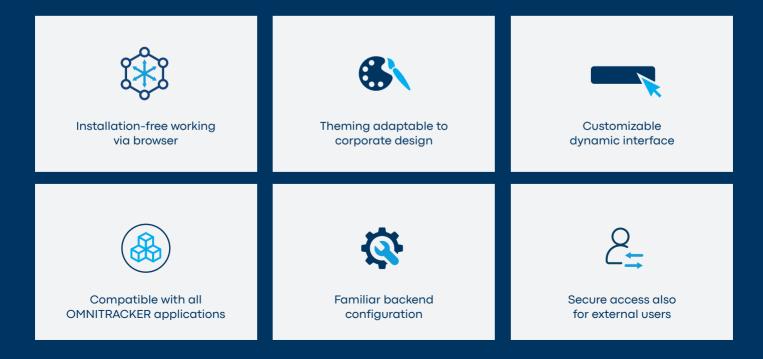

Your benefits

- ✓ **Improved performance, as only required content is loaded**
- ✓ **Less maintenance for updates**
- ✓ **No local OMNITRACKER installation necessary**
- ✓ **Modern user interface with intuitive usability**
- ✓ **Responsive design for all devices**
- ✓ **Supports barrier-free working**
- ✓ **Customizable toolbar for efficient operation**

Web-based working in all OMNITRACKER applications

With the OMNITRACKER Web Gateway 2, you can access all your OMNITRACKER applications and data directly via all common browsers. The user interface is optimized for mobile working on tablet and smartphone screens thanks to its responsive design.

The interface and theming of the Web Gateway 2 can be adapted to your corporate identity. Thanks to the contemporary design and technology used, barrier-free working (in accordance with WCAG 2.1, Level AA) is made possible. The navigation concept within the client has been expanded to include numerous new options to support needs-based usage scenarios within the scope of the individual system configuration. These include, for example, the tile view as a clear and flexible user guidance, the new breadcrumb bar and other elements.

Features of OMNITRACKER Web Gateway 2

Installation-free working via browser

Independent solutions

For companies of the SME sector to global players: We support all enterprises in the digitization and automation of IT and non-IT services. OMNITRACKER is used in all industries and company sizes. Thanks to our experience and flexibility, we serve all branches as well as niche sectors with individual solutions.

More services

Our consulting experts advise you on the development and implementation of your digital projects. As a reliable software partner, we have accompanied thousands of software projects in over 750 running systems. With this extensive experience and know-how, we support you in all phases: from requirement analysis and implementation to system migrations and workflow optimization —always with assistance of our technical support. Our trainings for end users, administrators and customizing trainings as well as web-based seminars complete the OMNINET service portfolio.

About OMNINET

OMNINET, headquartered in Eckental near Nuremberg, Germany, and with other national branches and international subsidiaries, is one of the market leaders in the field of business process software, especially in the field of IT and enterprise service management. The product portfolio ranges from a highly flexible platform for the digitization and automation of business processes to BI tools and cloud-based service management solutions.

OMNINET is certified to ISO standards and has been delivering certified and award-winning software products for 25 years—100% made in Germany. OMNITRACKER is the industry-independent software solution for an ITIL®4- and GDPR-compliant implementation of individual digitization strategies.
